Jaipur, Rajasthan • +91 8769966665 • Khushalnamdev325@gmail.com • [LinkedIn](#) • [GitHub](#)

PROFESSIONAL SUMMARY

Salesforce Developer with strong hands-on expertise in Apex, Lightning Web Components (LWC), Flows, and REST API integrations. Delivered 2 end-to-end CRM solutions — a Real Estate platform and a Complaint Management System — with measurable impact (up to 45% reduction in resolution time). Trailhead Ranger with 100+ badges and 62,200+ points, actively pursuing PD1 certification. Full Stack background in Java and JavaScript enables end-to-end problem solving across the Salesforce ecosystem.

TECHNICAL SKILLS

Salesforce Admin: Configuration, Profiles, Roles, Permission Sets, Custom Objects, Validation Rules, Reports & Dashboards

Salesforce Dev: Apex (Classes, Triggers, Batch, Scheduler), Lightning Web Components (LWC)

Automation & Flows: Flow Builder, Process Builder, Workflow Rules, Approval Processes

API Integration: REST & SOAP APIs, Apex HTTP Callouts, Connected Apps, Named Credentials

Salesforce Concepts: Data Modeling, Security Model, Governor Limits, SOQL/SOSL

Testing & Deployment: Apex Test Classes, Debugging, Change Sets, Version Control (GitHub)

Other Technologies: Java, JavaScript, HTML/CSS, Full Stack Development Fundamentals

CERTIFICATIONS & TRAILHEAD

- Salesforce Trailhead Superbadges: Apex Specialist, LWC Specialist, Admin Beginner
- Salesforce Certified Platform Developer I (PD1) — In Progress
- 100+ Trailhead Badges | 62,200+ Points | Ranger Rank

EXPERIENCE

Salesforce Developer | *Self-Initiated Projects*

- Engineered 10+ production-grade Apex classes and triggers with 100% governor limit compliance and comprehensive test coverage (75%+)
- Architected reusable LWC component library, cutting UI development time by ~30% and improving consistency across project modules
- Integrated 2+ external REST APIs using Apex HTTP callouts, Named Credentials, and Connected Apps — enabling secure real-time data exchange
- Managed full deployment lifecycle across sandbox and production orgs using Change Sets and Git-based version control with structured branching

PROJECTS

Apna Ghar — Real Estate Buyer-Seller Connect | [GitHub](#)

- Built end-to-end Salesforce CRM platform managing 100+ property records with seamless buyer-seller matching and enquiry tracking
- Designed 4 custom objects (Property, Buyer, Seller, Enquiry) with relationships, validation rules, and automated lead lifecycle — reducing manual work by ~40%
- Implemented Apex triggers and Flow automation for real-time lead assignment and follow-up notifications

Salesforce Complaint Management System | [GitHub](#)

- Built end-to-end complaint platform with auto-priority classification (High/Medium/Low), round-robin agent assignment, and real-time status tracking (Open → In Progress → Resolved → Closed) with automated email notifications
- Implemented auto-escalation for unresolved High-priority complaints and 5+ report dashboards for SLA breach analysis — reducing resolution time by ~45%

EDUCATION

B.Tech — Computer Science Engineering | Arya College of Engineering, Jaipur | 2022 – 2026 | CGPA: 8.5
